Language and Level

English is a must and applicants should possess the command of at least B2 level for communication.

Selection and Notification

We will go through 2nd phase of assessment based on the submitted document. One final recipient for the Residency will be decided by an independent panel designated by Toji Cultural Centre. Final notification will be available to both the recipient and the coordinator on June 18.

COVID-19 Self-quarantine

Payments (only lodging and meals) incurred during the duration of the COVID-19 self-quarantine in Korea will be covered by Wonju City. Two weeks' of self-quarantine is mandatory in Korea. Factoring this duration in, we ask the recipient to arrive before August 18. The residency in Toji Cultural Centre officially starts on September 1.

Requirements during Residency

There are no specific requirements for the recipient to bear. We want the recipient to relax and engage in his/her creative activity as much as possible during the Residency. Besides, as Korean writers will be staying in Toji Cultural Centre, forging friendship with them is recommended, too. As for cultural activities in and outside of Wonju, I will further talk with the selected recipient.

Please send your application to dewkorea@korea.kr (Drake Yang)
no later than June 6.
